

Heart of the Community,

I have been working with the “Florida Hospital for Children”, in Orlando. I introduced “Tommy Moose” to them and they fell in love with him. They all felt that Tommy Moose would bring great comfort and joy to all the children in the hospital. They are so excited about this and would like to receive 1000 or more “Tommy Moose’s” from us. They treat on average 7400 children each year in their hospital. These children come from all over the state of Florida.

This is where I need your help! I am asking each Lodge and each Chapter, if they wish to bring one box of “Tommy Moose’s” to the FBMA convention in September with them. Please bring them to the Heart of the Community table in the hall way of the hotel. The Heart of the Community team will accept and deliver them to the hospital.

When the parents of the children find out where the Tommy Moose’s came from, we hope, they will be contacting the Moose Lodge in their area to say thank you and ask how I join.

Thank you in Advance,

Bob Anderson

FBMA Heart of the Community Chairman
